

Teachers Experiencing Antarctica and the Arctic

Participant & Project List
Antarctic Field Season 00/01

Through the Teachers Experiencing Antarctica and the Arctic Program (TEA) teachers journey to polar regions to participate in scientific research. As TEA Associates, other teachers bring this experience into their classrooms. The TEA Program is a partnership among teachers, researchers, and school districts.

TEA is sponsored by the National Science Foundation's Division of Elementary, Secondary, and Informal Education in the Directorate of Education and Human Resources and the Office of Polar Programs. TEA is facilitated by Rice University, the Cold Regions Research and Engineering Laboratory, and the American Museum of Natural History.
